Dear Mr./Ms. \_\_\_\_\_,

I am excited to see the opening for your Summer 2023 Software Engineer I position (Boston, MA) on LinkedIn! The opportunity to work with Nuance and be a part of this company is a fantastic opportunity. This spring, I graduated from Wheaton College (MA) with a B.A. in Computer Science and a minor in Mathematics. I was also a vital part of my college's Men's Varsity Baseball Team. I believe my education and extracurricular experience will make me a great fit for this position.

Being a part of Wheaton College Baseball taught me many skills that will transfer over to Nuance's work environment. I developed a strong work ethic, team-building skills, and strong communication skills. Likewise, I learned to become a leader that is dependable, accountable, and respectful. At Nuance, I believe I will be a great asset to any team I join, while simultaneously boosting the work environment surrounding me. I am ambitious and thrive best when surrounded by other like minded individuals. At Nuance, I know I will experience this feeling and seize the opportunity given to me.

In closing, I am excited about this opportunity. I will fully support the team as well as the business and encourage the overall growth of the company. I look forward to hearing more about the position and appreciate your consideration.

**Sincerely,**

**Nicholas Croteau**
